Sophistication in Security. Distinction in Guest Services

Special Event Security

Special event management is a complex skill that few security companies, large or small, can execute properly. Picore International, however, has years of experience providing all levels of special event security for award shows, political conferences, concerts, festivals and executive board meetings. In addition to having the power needed to deploy hundreds of security and event staff to your venue of choice, we know how to work closely with local law enforcement officials to keep order during those events that may be controversial in nature. Projects have spanned from those involving only a handful of executives to those boasting over 400,000 attendees.

From high profile movie premieres to mega-attendance conventions, Picore International provides a broad range of security services to compliment your special needs. We extend support in pre-planning operations and crisis response:

Picore International provides both event and security services such as:

Event Services	Security Services
Risk analysis	Uniformed Security (Armed & Unarmed)
Event Staff Selection & Recruitment	Security Ambassadors
Command Post Procedures and Set-Up	VIP & Executive Protection
Post Orientation and Emergency Training	Global Security Detail
Event Policies and Procedures	Loss Prevention
Bag Searches/Metal Detectors	Robbery Suppression
Security Transportation and Traffic Plans	Strike Security
Crowd Management	Courtesy Patrol

"Picore International serves as our security team providing both protection as well as confirming our guests receive a warm welcome. The expert approach of combining both security and guest services is a delicate balance and Picore has demonstrated excellence in both disciplines".
