Picore International A Balanced Approach

Picore International provides a balanced approach to your security needs with our unique blend of security, behavioral sciences, and threat assessment expertise. From global security to training and investigative services, you will benefit from our thoughtful approach, personalized and responsive service, and cost effective solutions.

Picore International has expanded our footprint in recent years to provide enhanced services to clients across the globe and provides comprehensive security services both nationally and internationally. With a special focus on Latin America, our committed team of global professionals is renowned for its ability to manage a wide range of sensitive situations.

Picore International understands your need for security services that are both exemplary and cost effective. We have worked with many clients over the last decade and take pride in helping our clients feel safer every day. We look forward to serving your organization with the same success in safety.

Picore International meets the security needs of clients in the following sectors throughout the U.S.

as well as internationally:

- Civic Centers
- Educational Institutions
- Energy, Water and Oil
- Financial Institutions
- Hotels and Hospitality
- Industry and Manufacturing
- Media and Entertainment
- Museums
- Pharmaceuticals
- Residential Estates
- Retail Businesses
- Labor Unions
- Shopping Centers

We offer liability insurance up to \$8 million and workers' compensation insurance up to \$1 million per occurrence.

Our mission is to provide exemplary security service while staying committed to a contemporary business approach. Picore enlists a vast network of security professionals to assist our clients globally.

Picore Officer, Hurricane Maria- Puerto Rico

Preparedness is defined by DHS/FEMA as "a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action in an effort to ensure effective coordination during incident response."

Special Event Security

Special event management is a complex skill that few security companies large or small can execute properly. Picore International has years of experience providing all levels of special event security for awards shows, political conferences, concerts, festivals and executive board meetings. In addition to having the power needed to deploy hundreds of security staff to your venue of choice, we know how to work closely with local law enforcement officials and keep order during those events that may be controversial in nature. Leadership training for all on-site supervisors helps us go above and beyond mere crowd control and offer effective customer service that ensures every attendee enjoys maximum security with minimum disruption.

Uniformed Security (Armed and Unarmed)

Picore International's team of uniformed security officers is specially trained to meet our clients' needs. All officers undergo a careful screening process, including an extensive interview and criminal background check. At Picore International, we adhere to the philosophy of "maximum security with minimum disruption." The key responsibility of our officers is to prevent an incident before it occurs so we ensure our uniformed security officers remain highly visible in all their assignment.

Courtesy Patrol

Picore International can use bicycle patrols; however, covering ground quicker is not always best. Foot patrols yield the best results as attention to detail cannot be accomplished when focusing on riding is the priority. Patrol Officers can immediately dispatch local law enforcement, paramedics, and fire; in addition, each officer is equipped with a cell phone so tenants can reach the officer at any time for security issues.

Security Ambassadors

An integral part to any security program, many clients utilize Picore International Security Ambassadors to extend an extra amount of customer service to both employees and customers. Ambassadors can help with directions to a location, sign in visitors to a corporate office, escort employees to their cars after dark, and extend a steady hand in a moment of distress.

VIP and Executive Protection (Plain Clothes, Armed and Unarmed)

Picore International Executive Protection Officers are highly- trained personnel with years of experience working in the military, law enforcement or VIP services. Our Executive Protection Officers excel in handling delicate assignments such as political conventions, high-risk workplace terminations or security escorts for corporate and celebrity clientele.

PATROL SERVICES

Picore International uses the best, most professionally-equipped vehicles in the industry. Patrol vehicles are clearly marked and resemble local law enforcement models. Each patrol vehicle has a computer in the car that can send reports and directly contact the client or vice versa. Each patrol officer maintains a valid driver's license and must maintain a clean driving record. Our patrol officers are trained and maintain their certifications for the usage of batons, pepper spray and firearms.

Picore International provides patrol services using both marked and unmarked vehicles. Picore International services include property lock-ups such as pool gates, laundry and recreation rooms, parking gates, offices, building structures, etc. Patrol services also issue warnings, citing and towing of illegally parked vehicles, impose property rules and regulations, and respond to nuisance / disturbance calls.

Picore International is ready when you need us. "The planning can be pretty intense," Picore concedes, "but every detail we address helps to ensure that our clients are as secure as possible without being disrupted by the process."

Global Security Detail

We specialize in the deployment of experienced security teams and escorts to keep those we serve out of harm's way. Through strong relationships with local security experts, we take special care to collect any needed intelligence while maintaining a low profile.

Loss Prevention

Picore International partners with our clients to develop, Implement, and evaluate their shrinkage prevention programs, helping to prevent loss and boost revenue. We also meet our clients' needs by providing undercover loss prevention officers and door greeters. Given that the amount of wrongful apprehensions in the industry is notoriously high due to a lack of proper staff training and supervision, these personnel are well- versed in crime prevention and report writing. They work diligently to ensure shoplifting apprehensions are discreet and accurate.

Robbery Suppression

Robbery Suppression provides proactive security officers to provide a visible deterrent to potential threats. The core philosophy of robbery suppression is prevention opposed to apprehension.

Conflict Management Training

We believe that many security issues stem from conflicts that arise as a result of miscommunication. We pride ourselves in leading specially tailored training programs that help our clients better manage conflict by encouraging dialogue, supporting diversity and promoting teamwork.

Threat Assessments and Workplace Violence Prevention

Threat assessments help to determine the security risks an organization faces from its employees, customers and/or visitors. Picore International conducts all threat assessments with Founder & CEO Dr. Dana Picore, who works hand-in-hand with our clients' Human Resources, Corporate Security, Loss Prevention and Legal departments to gather the necessary information. Interventions are carefully planned to de-escalate possible danger.
